DR. RAM MANOHAR LOHIA HOSPITAL, NEW DELHI - DEPARTMENT OF CASUALTY & FORENSIC MEDICINE
MEDICO-LEGAL CERTIFICATE (MLC NO. 8841/2024)
DATE & TIME OF EXAMINATION: 11/08/2024 at 09:45 PM IST (34 Hours after alleged incident)

PATIENT PARTICULARS:
Name: Vikramaditya Singhania | Age: 49 Years | Gender: Male
Brought By: Self, accompanied by legal counsel.
Alleged History: Alleged physical assault and beating by business associates at Okhla Ph-III on 10/08/2024 at 11:30 AM.

CLINICAL EXAMINATION FINDINGS:
1. General Condition: Patient conscious, oriented in time, space and person. Pulse 78/min, BP 124/82 mmHg.
2. External Physical Injuries Noted:
- Single superficial linear abrasion measuring 1.2 cm x 0.2 cm over dorsal aspect of left distal forearm.
- Color: Reddish crusting consistent with healing superficial frictional contact. No active bleeding or oozing.
- No contusions, hematoma, swelling, laceration, or incised wound detected anywhere on body.
- Skull, spine, ribs, thorax, abdomen, and limbs clinically intact, non-tender, with full range of motion.
3. Radiology / X-Ray Findings (Left Upper Extremity):
- Left forearm AP & Lateral View: No fracture, dislocation, or bony abnormality detected.

FORENSIC OPINION & CLASSIFICATION:
Nature of Injury: SIMPLE IN NATURE, caused by blunt/frictional contact with rough surface.
Duration of Injury: Approximately 24 to 36 hours prior to examination.
No evidence of grievous hurt, bone trauma, internal hemorrhage, or dangerous weapons.
Patient discharged immediately after antiseptic dressing. Hospitalization NOT required.

EVIDENTIARY DEFICIENCIES & PROCEDURAL COMPLIANCE AUDIT:
CRITICAL DEFECT: This document is an uncertified computer printout from hospital HIS terminal.
No mandatory Electronic Evidence Certificate under Section 65B of Indian Evidence Act, 1872 or
Section 63 of Bharatiya Sakshya Adhiniyam (BSA), 2023 is affixed or signed by the system administrator.
